April 26, 2018

Dear Valued Customer,

In response to your concern or inquiry, the following is PTCA's statement on product compliance with the European Union's REACH Regulation (EC/1907/2006). This statement applies to products from any PTCA manufacturing location as well as from Enduro Industries.

REACH-SVHC CANDIDATE LIST FOR AUTHORIZATION

This SVHC statement is based on the April 13, 2018 revision of the European Chemical Agency's 182-substance candidate list for authorization. PTCA's steel products do not contain any of the listed substances at other than trace concentrations below the 0.1 weight % declaration limit.

REACH REGISTRATION

PTC Alliance's steel products are classified as articles under the REACH regulations and as such are not subject to registration. They do not contain any substances intended for release, and therefore do not meet the Article 7.1 criteria that would require registration of their constituent substances.

A handwritten signature in black ink that reads "Terry F. Beckwith".
